

Kingsley International School adopts the National UK National Curriculum for England and Wales that ultimately leads to the IGCSE examination. The UK National Curriculum is offered from Nursery right up to Year 9. The IGCSE curriculum is then offered to the Year 10 and Year 11 students.

As the school believes academic excellence is not the only contributing factor to the future success of students, Kingsley International School also place strong emphasis on extra-curricular activities, sports and also foreign languages to prepare them for the global environment in the future.

### **Method/curriculum**

Kingsley International School adopts the National UK National Curriculum for England and Wales that ultimately leads to the IGCSE examination. The UK National Curriculum is offered from Nursery right up to Year 9. The IGCSE curriculum is then offered to the Year 10 and Year 11 students. As the school believes academic excellence is not the only contributing factor to the future success of students, Kingsley International School also place strong emphasis on extra-curricular activities, sports and also foreign languages to prepare them for the global environment in the future. Checkpoint examinations are conducted at Year 6 and Year 9.

Students wishing to enrol with Kingsley would have to sit for a **placement test** prior to the enrolment.
