

GCE Advanced Level (A-Level) (KPT / JPS (KR 9208) 07/13)

Methodist College Kuala Lumpur is one of the pioneers in Kuala Lumpur for the GCE A-level programme offered by Edexcel International, U.K which recognizes the College as an international centre of learning. Since 1983, with more than 25 years of experience in pre-university education, Methodist College has produced an excellent track record.

This pre-university course gives entry qualifications to a wide range of courses in prestigious universities in the world. With appropriate grades in the required subjects you can study medicine, finance, engineering, psychology, law, actuarial science, economics, biotechnology and other courses in world class universities, both at home and abroad

Our students have gained admissions to renowned universities such as Cambridge, Imperial College, London School of Economics, Brown, Sydney and the National University of Singapore. They have gone on to find challenging jobs and satisfying careers as doctors, lawyers, engineers, architects, chemists, pharmacists and psychologists.

Australian Matriculation (AUSMAT) (KPT / JPS (KR 9207) 07/13)

Methodist College Kuala Lumpur introduced the Australian Matriculation (AUSMAT) programme as part of the pre-university programme since the year 2000. The 11-month AUSMAT programme is offered by the School Curriculum and Standards Authority (SCSA) of Western Australia and is well-structured with a balanced emphasis on coursework and a final written examination.

Academic scores are based on on-going internal assessments and a final external examination to be held in November. Successful students are awarded the Western Australian Certificate of Education (WACE).

The AUSMAT qualification is internationally recognised for admission of students to renowned universities in Australia, New Zealand, Canada, United States, United Kingdom, Singapore and many other foreign countries, as well as to local private institutions of higher learning. Numerous Methodist College students have gone on to study mass communication, commerce, biotechnology, engineering, and other interesting courses especially in Australia and Singapore. They have gone on to take up lucrative and interesting jobs at home and overseas.
